

14th International Congress on Infectious Diseases (ICID)

MIAMI, FLORIDA • USA • MARCH 9-12, 2010

Organized by the International Society
for Infectious Diseases

PRELIMINARY PROGRAM

With the

4th Regional Conference of the International Society of Travel Medicine

II Congreso Latinoamericano de Medicina del Viajero

In collaboration with the

Infectious Diseases Society of America (IDSA)

Pan American Association for Infectious Diseases (API)

Latin American Society of Pediatric Infectious Disease (SLIPE)

International Organizing Committee

Keryn Christiansen (Australia)
Timothy Brewer (Canada)
Jonathan Cohen (UK)
Raúl Istúriz (Venezuela), *President*
Keith Klugman (USA)
Daniel Lew (Switzerland)
Carla Odio (Costa Rica)
Heikki Peltola (Finland)
Didier Raoult (France)
Eric Summers (USA)
Richard Wenzel (USA)

Program Advisory Committee

Guillermo Acuña (Chile)
Deshratn Asthana (USA)
NC Bondonaik (Jamaica)
Lina Bofill (USA)
Pedro Cahn (Argentina)
Gordon Dickinson (USA)
Pedro Kouri (Cuba)
Samuel Ponce de Leon (Mexico)
Frederick Southwick (USA)
Jaime Torres (Venezuela)
Sergio Wey (Brazil)

Collaborating Organizations

Infectious Diseases Society of America (IDSA)
International Society of Travel Medicine (ISTM)
Latin American Society of Pediatric
Infectious Diseases (SLIPE)
Pan American Association for
Infectious Diseases (API)
Sociedad Latinoamericana de Medicina
del Viajero (SLAMVI)

RCISTM4/SLAMVI Travel Medicine Program Committee

Jessé Reis Alves (Brazil), *Chair*
Cristián Biscayart (Argentina), *Co-Chair*
Susana Lloveras (Argentina), *Associate Chair*
Arlene Calvo (Panamá), *Associate Chair*

Members

Guillermo Acuña (Chile)
Marcos Boulos (Brasil)
Suni Boraston (Canada)
Alejandro Lepetic (Argentina)
Jeanette Dabanch Peña (Chile)
Carlos Franco-Paredes (USA/Mexico)
David Freedman (USA)
Eduardo Gotuzzo (Peru)
Sylvia Lemos Hinrichsen (Brasil)
Alejandra Macchi (Argentina)
Alan Magill (USA)
Melissa Mascheretti (Brasil)
Mario Masana Wilson (Argentina)
Tomás Orduna (Argentina)
Alejando Ortiz (Mexico)
Cecilia Perret (Chile)
Franklin Simões de Santana Filho (Brasil)
Tânia Souza Chaves (Brasil)
Nestor Sosa (Panamá)
Jaime Torres (Venezuela)

Cooperating Organizations

American Society for Microbiology (ASM)
Argentinian Society of Infectious Diseases (SADI)
Asociación Colombiana de Infectología (ACIN)
Brazilian Society of Infectious Diseases (BSID)
Costa Rican Society of Infectious Diseases
European Society of Clinical Microbiology and
Infectious Diseases (ESCMID)
International Society for Anaerobic Bacteria (ISAB)
Panamanian Society of Infectious Diseases
Pan American Health Organization (PAHO)
Paraguayan Society for Infections Diseases
Venezuelan Society of Infectious Diseases (SVI)

Introduction by ISID

Dear Colleagues,

On behalf of the International Society for Infectious Diseases it is my honor to invite you to attend the 14th International Congress on Infectious Diseases. The 14th ICID will take place in the warm and lovely city of Miami on March 9–12, 2010. I am certain that the Congress will be a superb opportunity for you to meet colleagues, share knowledge and create productive partnerships.

Infectious diseases continually surprise and challenge us. New diseases emerge, known diseases spread and common diseases become incredibly resistant to available drugs. As professionals in the field we need to be smart, creative and vigilant in order to meet the evolving challenges. Indeed we can only succeed in this task by working together: by actively exchanging ideas, by generously sharing resources and by constantly collaborating. The purpose of the 14th ICID is to promote all of these interactive activities among thousands of international experts and practitioners to the highest possible degree.

ISID is very excited that the 4th Regional Conference of the International Society of Travel Medicine and the II Congreso Latinoamericano de Medicina del Viajero will be held in conjunction with the 14th ICID. This educational program will be hosted by the International Society of Travel Medicine (ISTM) and the Sociedad Latinoamericana de Medicina del Viajero (SLAMVI), together with the ISID.

I am honored to recognize our collaboration with the Pan American Association for Infectious Diseases (API), the Latin American Society of Pediatric Infectious Diseases (SLIPE) and the Infectious Diseases Society of America (IDSA). In addition, I welcome the cooperation of our colleagues from societies representing individuals from countries in the Americas and elsewhere with great enthusiasm.

The final program of the 14th ICID will include 6 Plenary Lectures, more than 30 Symposia, 4 sessions devoted to oral presentation of selected abstracts, meet-the-expert sessions and poster sessions. I am delighted to report that six outstanding leaders in the field have already agreed to present the state-of-the-art Plenary Lectures described in this Preliminary Program.

With planning for the Congress well underway, I encourage you to mark your calendar so that you can join us in Miami for a fantastic meeting in March 2010.

Raúl Istúriz M.D.

President, International Society for Infectious Diseases (ISID)

 **Introduction by ISTM**

Dear Colleagues,

On behalf of the ISTM it is my great pleasure to invite you to attend the 4th Regional Conference of the International Society of Travel Medicine (RCISTM4) to be conducted jointly as the II Congreso Latinoamericano de Medicina del Viajero (SLAMVI) just before and during the 14th International Congress on Infectious Diseases (ICID) to be held in Miami, Florida, USA from March 9–12, 2010.

The biennial RCISTM conferences are established as a venue to enhance the practice and science of travel medicine and to foster the growth of the discipline of travel medicine as well as the growth of a local travel medicine society within a different region each meeting. This marks the first time that ISTM has partnered with a Latin American regional partner, and we are particularly privileged to collaborate with SLAMVI (Sociedad Latinoamericana de Medicina de Viajero).

SLAMVI will oversee together with ISTM a program integrated into the 14th ICID that will highlight travel medicine issues in the Americas and beyond in all the usual formats expected at an ISTM meeting.

Miami has a vibrant cultural heritage and is a truly bilingual city. Recognizing the unique value of its traditions and current place as the crossroads of the Americas, it seems a fitting location for a regional Latin American meeting attracting attendees from all of Latin America.

By partnering with the International Society for Infectious Diseases (ISID), we can guarantee conference attendees a rich educational experience in the setting of a robust and well-established international forum.

We are also pleased to offer the Certificate in Travel Health (CTH) examination to our members in Miami and hope this will also encourage general attendance at the 4th RCISTM.

Alan J. Magill, MD

President, International Society for Travel Medicine (ISTM)

Introduction by SLAMVI

Dear Colleagues and Friends,

It is our great pleasure to invite you to attend the II Congreso Latinoamericano de Medicina del Viajero organized by SLAMVI, the Sociedad Latinoamericana de Medicina del Viajero, and we are proud to announce this congress to be held jointly with ISTM in their 4th Regional Conference (RCISTM4). We are furthermore honored to have been invited by ISID, the International Society for Infectious Diseases, to conduct both meetings within their 14th International Congress on Infectious Diseases (ICID) to be held in Miami, Florida, USA from March 9–12, 2010.

SLAMVI is immensely grateful to ISTM to have chosen Latin America as the region for their fourth biennial regional conference, with the main goal of promoting the growth of Travel Medicine as a prominent specialty in our region. This is a unique opportunity for SLAMVI to consolidate its scientific growth and membership, by calling all specialists in Latin America to join our young society.

ISTM and SLAMVI will organize a program that will be part of the 14th ICID, focusing all aspects of our rapidly developing discipline with a particular emphasis on the main issues of Travel Medicine in our region that we hope will attract the interest of all attendees. Particularly on March 9th, we will have the opportunity of holding several sessions specially directed to Latin American specialists attending the II Congreso Latinoamericano and as recognition to our language, our partnering associations have honored us to have Spanish and Portuguese as the official languages of these sessions.

On behalf of SLAMVI, our special thanks to ISID for their generous proposal for this joint meeting and their spirit of cooperation with our society. Holding a Travel Medicine meeting within the scope of such a traditional Infectious Diseases Conference will present the challenge of a wider audience, and thus a higher chance of fostering the development of Travel Medicine in the region. Also, holding a Latin American meeting in Miami constitutes a fabulous scenario for the Americas, in what has been increasingly acknowledged as a developing bridge across the whole continent.

We look forward to a meeting full of creative thinking and productive debate, which will also let us avail ourselves of the expertise of a relevant Faculty and take back home new knowledge. We hope that while attending this meeting you will also have a chance to enjoy the dynamic life of Miami.

See you there! Nos vemos ahí!

Mario Masana Wilson, MD

President, Sociedad Latinoamericana de Medicina del Viajero (SLAMVI)

Time Schedule

Abstract submission deadline		November 1, 2009	
Notification of the acceptance of abstracts and assignment to poster sessions		December 20, 2009	
Early registration deadline (<i>postmarked</i>)		January 15, 2010	
Last date by which registration fees must be received for papers to be included in the program		January 10, 2010	
Last date by which requests for registration refunds must be received		February 1, 2010	
Final Program and Abstract Book available		At the Congress site	
Congress Registration & Information	13:00 – 17:00 7:30 – 18:30 8:00 – 17:00 8:00 – 17:00 8:00 – 13:00	Monday Tuesday Wednesday Thursday Friday	March 8, 2010 March 9, 2010 March 10, 2010 March 11, 2010 March 12, 2010
ISTM Certificate in Travel Health Examination (CTH)	13:00 – 18:00	Monday	March 8, 2010
Opening Ceremony	18:30 – 20:00	Tuesday	March 9, 2010
Welcome Reception	20:00	Tuesday	March 9, 2010
Scientific Sessions	9:00 – 17:30	Tuesday through Friday	March 9, 2010 March 12, 2010
Poster Sessions	13:30 – 14:30	Wednesday through Friday	March 10, 2010 March 12, 2010
Meet-the-Expert Sessions	7:45 – 8:45	Tuesday through Friday	March 9, 2010 March 12, 2010
Business Meeting (<i>lunch provided</i>)	12:45 – 13:45	Friday	March 12, 2010
Commercial Exhibition	9:00 – 17:30	Wednesday through Friday	March 10, 2010 March 12, 2010

Congress Information

Congress Site

James L Knight International Center &
Hyatt Regency Miami
Miami, FL, USA

Official Language

The official language of the Congress is English. Some Spanish/Portuguese language sessions will be available on Tuesday, March 9, 2010 during the SLAMVI/ISTM program.

Important Information

Please visit our web site
http://www.isid.org/14th_icid/ for detailed information on the Congress. The printed program is only a short summary.

International Society for Infectious Diseases (ISID)

Financial Assistance and Awards

More detailed information on ICID Scholarships and Awards can be found on the web site http://www.isid.org/14th_icid/

ISID Awards

The deadline for abstract submission for all awards is November 1, 2009.

Abstracts must be submitted electronically according to the guidelines for abstract submission on our web site <http://www.isid.org>.

ICID Scholarships

A limited number of scholarships will be available to participants with accepted abstracts.

- An e-mail requesting a scholarship must be sent to ISID headquarters (e-mail: info@isid.org) by November 1, 2009.
- Scholarships may provide for a **waiver or reduction in the registration fee**. Travel and accommodation costs cannot be covered by the Society.
- In allocating scholarships, the Program Committee will give preference to individuals who are from lower-resource countries.

Novartis Vaccines Awards for Epidemiology of Infectious Diseases

Two abstracts will be selected for the award. Each award winner will receive US\$ 2,500 in addition to reimbursement of travel, accommodation, and registration expenses for the 14th ICID. This year, only researchers working in Latin America and the Caribbean are eligible for the awards

Eligibility and Application Procedure.

- The Program Committee and a representative from Novartis Vaccines will select the award winners.
- Abstracts meeting the following criteria will be considered: (1) abstracts must focus on infectious disease epidemiology; (2) abstracts must be accepted for presentation at the 14th ICID; (3) researchers should be at an early stage in their research career; and (4) researchers must be from Latin America or the Caribbean.
- Members of the ISID Executive Committee and Council, staff and employees of Novartis Vaccines or their affiliates are not eligible.

Sanofi Pasteur Awards for Communicable Disease Epidemiology

Appropriate research may be based on laboratory investigation (e.g., serotypes of pneumococcus found in invasive disease in children or adults; seroprevalence of hepatitis A according to age), clinical investigation (e.g., risk factors for dengue fever), epidemiologic field work (e.g., morbidity and mortality from influenza, incidence of Lyme disease), health economics (e.g., medical and social costs of influenza, cost-benefit of vaccination program), or a combination

of these topics. Two awards sponsored by Sanofi Pasteur will be presented for the best abstracts accepted for presentation at the Congress. Each award consists of US\$ 2,000 in addition to reimbursement of travel, accommodation, and registration expenses for the 14th ICID.

Eligibility and Application Procedure.

- There are no age or professional requirements for the awards. The sole requirement is the acceptance of an abstract indicating outstanding accomplishment in the field of communicable diseases.
- All abstracts addressing communicable diseases will be considered for the award.
- Final selection of the candidates will be based on the recommendation of the ISID Program Committee with the agreement of the Medical and Scientific Directors of Sanofi Pasteur.
- Members of the ISID Executive Committee and Council, staff and employees of Sanofi Pasteur or their affiliates are not eligible.

ISID New Investigator Award

The award includes round-trip economy airfare to the 14th ICID, hotel accommodation, and registration for the Congress.

Eligibility and Application Procedure.

- Applicants must be based in countries outside North America or Western Europe.
- Applicants must submit to the 14th ICID and have accepted an abstract of original research on any aspect of infectious diseases not previously published or presented at an international meeting.
- Only applicants who have not previously had an abstract accepted for oral presentation at an international meeting are eligible. For purposes of this award, acceptance of abstracts at regional meetings outside North America or Western Europe does not affect eligibility.
- When submitting an abstract to the 14th ICID, applicants must include an email requesting consideration for the ISID New Investigator Award and stating that the eligibility requirements have been met.

Poster and Oral Sessions

*Abstracts must
be submitted
on or before
November 1, 2009.*

The ICID Program Committee invites the submission of research papers of excellent quality in all areas related to infectious diseases. Authors with original research are encouraged to submit abstracts related to bacterial, fungal, parasitic, and viral infections; the pathogenesis of infectious diseases; antimicrobial agents; travel medicine; and related fields of investigation. All abstracts are reviewed by subcommittees of the 14th ICID Program Committee for the quality and originality of their research, the scientific content, and presentation. Abstracts may be accepted into one of **three categories**:

Abstracts accepted for **oral** or **poster presentation** at the 14th ICID will be published as a supplement to the *International Journal of Infectious Diseases (IJID)* and distributed to Congress participants on site.

Abstracts accepted into the **International Scientific Exchange** category will be printed in the Scientific Exchange Abstract Book only and *will not* be presented as posters. Selection for poster, oral presentations, or the International Scientific Exchange is made by the 14th ICID Program Committee.

Topics:

- Epidemiology and Public Health
- Infectious Disease Surveillance
- Emerging Infectious Diseases
- Bacterial Infections
- Animal Models, Pathogenesis and Host Defenses
- Antibiotics: Mechanisms and Spectrum
- Antibiotics: Pharmacology and Clinical Studies
- Antibiotics: Usage and Stewardship
- Antibiotic Resistance
- Infection Control, Nosocomial Infections and Critical Care
- Parasitology
- HIV/AIDS and Other Retroviruses
- Pediatric and Perinatal Infections
- Diagnostics
- Tuberculosis and Other Mycobacterial Infections
- Mycology, Fungal Infections and Antifungal Drugs
- Zoonoses and Infections in Animals
- Vaccines and Vaccine Development
- Obstetrical-Gynecological, Surgical and Sexually Transmitted Infections
- Virology and Viral Infections (Non-HIV)
- Travel Medicine
- Other

Abstract Guidelines

Abstracts must be submitted on or before **November 1, 2009**.

All abstracts must be submitted **electronically** through the ISID web site http://www.isid.org/14th_icid/ and will not be accepted if submission is received via email or fax.

Detailed information about abstract submission can be found on the ISID web site: http://www.isid.org/14th_icid/.

Abstracts will be accepted for **oral presentation**, **poster presentation**, or in the **International Scientific Exchange** category. Abstracts accepted in the International Scientific Exchange Category will be published in the Scientific Exchange Abstract book only but *will not* be presented as oral or poster presentations.

Abstracts that present single clinical cases of previously reported diseases, investigations, or compounds that involve inadequate numbers of study subjects, in vitro studies of non-representative microbiologic strains, or abstracts that lack quantitative data will not be accepted.

All abstracts will be reviewed by the Program Committee, and a notice of acceptance or rejection will be sent. Session assignments will be mailed by **December 20, 2009** to the address given for correspondence.

If an abstract was accepted and the registration fee of the presenting authors is not received by **January 10, 2010**, the abstract will not be published.

Authors who do not attend a poster or oral session for which they have been scheduled will be ineligible to submit an abstract for the next ICID.

Pedro L. ALONSO, Spain
Malaria Eradication

Prof. Pedro L. Alonso graduated in Medicine at the Universidad Autónoma de Madrid, followed by post graduate training at the London School of Hygiene and Tropical Medicine. He holds a PhD from the University of Barcelona. Currently he is the Director of the Barcelona Center for International Health Research at the Hospital Clinic (CRESIB), and Professor at the University of Barcelona, and the Chairman of the Board of Governors of the Fundação Manhiça, Mozambique.

Prof. Alonso's professional career has been focused on the most important global health problems, especially those affecting developing countries. The cornerstone of his research activity has been the development and testing of new control tools against the main infectious diseases such as malaria, HIV, acute respiratory infections and other communicable diseases, especially those tools which help to reduce the morbidity and mortality in less-developed countries. Having worked in West, East and Southern Africa, most of his professional life has been devoted to public health in Africa, with a major emphasis on research and capacity building.

Prof. Alonso led the creation of the Manhiça Health Research Center in Southern Mozambique. He has served on a number of international committees and is currently a member of the MMV Board of Governors, as well as a member of the Steering Committee for the Global Malaria Eradication Research and Development.

Françoise BARRÉ-SINOUSSE, France
The Discovery of HIV: An Example of Translational Research in Response to an Emerging Epidemic

Françoise Barre-Sinoussi, PhD, is the acting Director of the "Regulation of Retroviral Infections" Unit at the Institut Pasteur in Paris. She has been involved in retrovirology research since the early 1970's and is recognized for her contributions to HIV/AIDS research, in particular as the first author of the publication that reported in 1983 the discovery of a retrovirus, later named HIV, in a patient at risk for AIDS. In 1988, she became responsible for her own laboratory at the Institut Pasteur and initiated research programs on viral and host determinants of HIV/AIDS pathogenesis.

Between 1988 and 1998, Dr. Barré-Sinoussi has been involved in collaborative programs on HIV vaccine research using primate models. Today, the research programs of her team are focused on regulations of HIV/SIV infection (intracellular restrictions of HIV-1 infection and innate immunity, in particular regulations of T cell activation resulting from the NK-dendritic cell interplay).

Dr. Barré-Sinoussi is author and co-author of more than 220 original publications and more than 120 articles in book reviews. She has been invited to speak at more than 250 International meetings and/or conferences. She has been (and is still) a member of a number of scientific committees in France and elsewhere, including scientific committees of several International AIDS Conferences. She has received 10 awards, both nationally and internationally for her contributions to HIV/AIDS research. Dr. Barré-Sinoussi shared the 2008 Nobel Prize in Medicine with Dr. Luc Montagnier for their discovery of HIV.

Along with her research activities, since the early 80's Dr. Barré-Sinoussi has been strongly involved in promoting integration between HIV/AIDS research and actions in resource-limited countries, in particular through the Institut Pasteur International Network and the coordination of the ANRS research programs in Cambodia and Vietnam, in accordance with her strong commitment to building capacity, training and technology transfers on site in Africa and Asia.

Martin CETRON, USA (SLAMVI / ISTM Plenary Speaker)

The Changing Patterns of Global Migration and the Impact on Infectious Diseases

Dr. Martin Cetron is the Director for the Division of Global Migration and Quarantine (DGMQ) at the U.S. Centers for Disease Control and Prevention (CDC). The DGMQ mission is to prevent introduction of infectious diseases in the U.S. and to prevent morbidity among immigrants, refugees, migrant workers, and international travelers.

Dr. Cetron received his M.D. from Tufts University and trained in Infectious Diseases at the University of Washington before joining the CDC's Epidemic Intelligence Service in 1992.

His primary research interests are international health and global migration with a focus on emerging infections, tropical diseases, and vaccine-preventable diseases in mobile populations. He has been in this current leadership role at CDC during responses to the key emerging infectious disease outbreaks of the 21st century including the anthrax bio-terrorism incident, the smallpox threat, the global SARS epidemic, and the U.S. Monkeypox outbreak. He is part of the CDC Pandemic Influenza Planning and Preparedness Team and the WHO Influenza Pandemic Task Force.

Myron S. COHEN, USA

Transmission and Prevention of Transmission of HIV: Clues from the Early 21st Century

Myron S. Cohen is the J. Herbert Bate Distinguished Professor of Medicine, Microbiology and Immunology and Public Health at the University of North Carolina at Chapel Hill. He is Associate Vice Chancellor for Medical Affairs-Global Health. Dr. Cohen received his BS degree (Magna Cum Laude) from the University of Illinois, Champaign-Urbana, an MD degree from Rush Medical College, Chicago Illinois and he completed an Infectious Disease Fellowship at Yale University.

Dr. Cohen serves as the Director of the UNC Division of Infectious Disease and the UNC Institute for Global Health and Infectious Disease, and he is Associate Director of the UNC Center for AIDS Research. Dr. Cohen serves on the Senior Leadership Group of the NIH Center for HIV Vaccine Immunology (CHAVI), and serves as part of the leadership group of the NIH HIV Prevention Trials Network (HPTN). Dr. Cohen serves as an Associate Editor of the journal, *Sexually Transmitted Diseases*, and the comprehensive textbook, *Sexually Transmitted Diseases*.

Dr. Cohen received the Distinguished Alumnus Award from Rush Medical College in 2000. He received the Thomas Parran Award (2005) for lifetime achievement in STD research from the American Sexually Transmitted Diseases Association. In 2008 Dr. Cohen received the O. Max Gardner Award for "contributions to mankind," the greatest honor in the University of North Carolina 16-campus system. Dr. Cohen has been repeatedly recognized as one of America's "Top Doctors" and "Best Doctors."

Dr. Cohen's research work focuses on the transmission and prevention of transmission of HIV, with emphasis on the role played by STD co-infections. He has conducted landmark studies related to the biology of HIV transmission and use of antiretroviral agents for prevention. In 2005, Dr. Cohen received an NIH MERIT Award for ongoing support of this work. Dr. Cohen is the author of more than 400 publications. Much of Dr. Cohen's research has been conducted internationally, especially in the African country of Malawi and in the People's Republic of China.

Keith KLUGMAN, USA

Pneumococcal infections in Children and their Impact on Adults

Keith Klugman is the William H. Foege Chair of Global Health in the Hubert Department of Global Health at the Rollins School of Public Health, Emory University, in Atlanta, Georgia. He is a Professor of Medicine in the Division of Infectious Diseases of the School of Medicine at Emory University and a Visiting Researcher in the Respiratory Diseases Branch of the Centers for Disease Control and Prevention (CDC). He is also the co-Director of the Respiratory and Meningeal Pathogens Research Unit of the University of the Witwatersrand, the Medical Research Council and the National Institute for Communicable Diseases in Johannesburg, South Africa.

Professor Klugman is the Treasurer of the Executive Committee of the International Society for Infectious Diseases, and Chair of the International Board of the American Society for Microbiology. He has chaired expert committees for the World Health Organization in Geneva and the Wellcome Trust in London, and currently serves as an editor or member of the editorial board of 8 international journals on medicine, infectious diseases and antimicrobials.

Professor Klugman's research interests are in antibiotics, antimicrobial resistance and vaccines for bacterial pathogens—particularly the pneumococcus. He has published more than 375 papers on these subjects to date.

Roberto KOLTER, USA

Microbial Ecology of Infectious Diseases

Roberto Kolter has been a highly influential microbiologist for a period that spans four decades. Early in his career he made enduring advances in our understanding of the regulation of DNA replication as well as practical advances in the development of the most widely used "suicide delivery vectors" of today.

Since establishing his own laboratory at Harvard Medical School in 1983, Dr. Kolter has made contributions in diverse areas of microbiology. Initially, he worked on peptide antibiotic synthesis and secretion, providing some of the earliest knowledge on "ABC exporters." This was followed by an exploration of the starvation physiology of *E. coli* at a time when virtually no one else thought of investigating stationary phase cultures. In part as a result of those efforts, the control of gene expression in non-growing cells became an area of intense investigation by others that continues to this day. Dr. Kolter's work on the population dynamics of stationary phase cultures, the so-called "GASP" (growth advantage in stationary phase) phenomenon, established such cultures as excellent model systems for experimental evolution studies. Since the mid-1990's he has applied genetic approaches to study bacterial biofilms; Dr. Kolter's laboratory developed the most widely used high-throughput assay for detection of biofilm development. His studies with *Bacillus subtilis* as a model system to understand biofilms continue to be at the leading edge of the field. Most recently, Dr. Kolter is investigating the chemistry of interspecies communication in bacteria. In this area he discovered that a bacterium's quorum sensing signal can also act as a fungal morphogen. In addition, he has developed screens that have led to the discovery of novel secondary metabolites produced by one species that profoundly affect the developmental patterns of other species.

Since 2002, Dr. Kolter has played a key role in the organizing and launching of the Microbial Sciences Initiative at Harvard (MSI) and is currently its co-director. The MSI (www.msi.harvard.edu) is an innovative University-wide interdisciplinary science program aimed at developing new approaches to explore the microbial world. MSI is playing a leadership role in microbial sciences worldwide by bringing together scientists from diverse backgrounds to think about and discuss key issues in microbiology.

Presently, Dr. Kolter is the President-Elect of the American Society for Microbiology and will become its President in July, 2009.

Preliminary Scientific Program

A more complete and updated list of symposia can be found on our web site http://www.isid.org/14th_icid/

SYMPOSIA

Please note that not all topics are confirmed and that they are subject to change.

A Rational Approach for the Treatment and Prevention of Neonatal Sepsis

- Understanding the Immune System of the Premature and the Term Neonate
- Global Burden of Neonatal Sepsis
- Rational Use of Antibiotics in the Critically Ill Neonate and the Premature Infant
- Strategies to Limit Infections in the Neonate and to Reduce Infection-Related Mortality

Bacterial Meningitis: Prevention and Cure

- The Global Impact of Bacterial Meningitis
- The Pathophysiology of Meningitis
- Vaccination Against Bacterial Meningitis
- Effective Adjuvant Therapies for Meningitis

Carbapenemase-Producing Bacteria: The Threat of “Panresistance”

- Clinical Impact and Current Epidemiology of Carbapenemase Producers
- Detecting Carbapenemase Producers in the Clinic
- Controlling the Spread of Carbapenemase-Resistant Bacteria
- Treatment Options for Carbapenem-Resistant Infections

Current Challenges in HIV Care

- State-of-the-Art on ARV Therapy: How Many Standards of Care?
- Drug Resistance and Other Laboratory Monitoring Assays in HIV Infection
- Opportunistic Infections and IRIS in the Era of HAART
- Why are Patients Dying in the HAART Era?

International Perspectives on Infection Control

- The Future Hospital Epidemiologist's Portfolio for Success
- International Controversies: Below the Elbow and Incremental Value of MRSA Screening
- Engaging Nations in a Commitment to Infection Control
- With Limited Resources: How to Begin and How to Sustain an Infection Control Program

Successful Short Antibiotic Treatment of Childhood Pneumonia—Myth or Reality?

- Determinants of Bacteriologic Eradication in Respiratory Tract Infections
- What Are the Benefits of Short Antibiotic Treatment?
- Short Treatment and the WHO-Defined Pneumonia—What Are We Treating?
- Can Short Antibiotic Treatment be Widely Used in Developed Countries

Update on Fungal Infections

- *Aspergillus* Infections: What Is New in Diagnosis and Treatment
- Treating Resistant Filamentous Fungi Infections
- Endemic Fungal Infections in the Americas
- Fungal Skin Infections in the Tropics

Synergistic Lethality of Bacterial and Viral Pneumonia

- Synergistic Lethality of Influenza and Pneumococcal Diseases in Humans
- Evidence from Animal Models
- Human Metapneumovirus Synergistic Lethality in Humans and Animals

SYMPOSIA UNDER DEVELOPMENT

Antibiotic Pharmacology: Implications for Therapy

Implementing Antimicrobial Stewardship in the 21st Century

Influenza: How Do We Avoid the Worst Case Scenario?

Monoclonal Antibody Therapeutics in Infectious Diseases

Neglected Tropical Diseases: Present Need and Present Action

Pneumococcal Disease and Global Vaccine Prevention

Tracking Zoonotic Diseases Around the Globe

Tuberculosis: New Approaches to an Evolving Challenge

Update on Infectious Diseases in Transplant Recipients

SLAMVI/ISTM Travel Medicine Program

A more complete and updated list of symposia can be found on our web site http://www.isid.org/14th_icid/

The II Congreso Latinoamericano de Medicina del Viajero (SLAMVI)/4th Regional Conference of the International Society of Travel Medicine program will incorporate a full day multi-session travel medicine program with over 20 speakers on **Tuesday, March 9, 2010** together with a travel medicine track through joint sessions with ISID during the remainder of the ICID meeting. Included in the travel medicine track will be a Plenary Lecture by Martin Cetron, Director, Global Migration and Quarantine, CDC on the topic of "The Changing Patterns of Global Migration and the Impact on Infectious Diseases".

Both **Spanish and/or Portuguese language sessions** as well as English language sessions will be available on the morning and afternoon of Tuesday, March 9. Plenary Lectures, Symposia, Workshops and Meet-The-Professor sessions will be presented on Tuesday, March 9.

SLAMVI/ISTM SYMPOSIA

Vaccination for the Latin American Traveler

Yellow Fever, Dengue and Other Emerging Infections in Latin America

Development of Travel Medicine in Latin America

Illness in the Returned Traveler

Rabies, Bites, and Envenomation

Destination Workshops for Latin American Countries

Traveler's Diarrhea and Other Foodborne Diseases of Latin America

ISTM EXAM

The ISTM is pleased to offer the Certificate of Knowledge Exam on **Monday, March 8, 2010** from 13:00 to 18:00 prior to the opening of the 4th Regional Conference of the ISTM in Miami, Florida. Those passing the examination will be granted a Certificate in Travel Health(r) or CTH(r). Knowledge of tropical diseases is not required. This exam will have limited seating available with preference given to ISTM members. Registration will begin September 15, 2009. Please visit www.istm.org for details on the CTH(r) program and registration information.

HYATT REGENCY MIAMI ~ HEADQUARTERS HOTEL

The Hyatt Regency Miami is the Headquarters Hotel and site of the 14th ICID. This hotel is a chic hotel that mirrors the city's cosmopolitan atmosphere. Guests can enjoy completely redesigned accommodations featuring plush Hyatt Grand Beds, ergonomic work stations and all new furnishings and fixtures. Hyatt Regency Miami's central location in the downtown business district allows guests easy access to the city's richest cultural experiences and world-renowned dining, shopping, nightlife and beaches located just minutes away.

COURTYARD BY MARRIOTT DOWNTOWN

The Courtyard by Marriott Downtown is a full service hotel, all sleeping rooms have recently been renovated. The hotel has a great restaurant and lounge on site and a fully equipped gym. This property is centrally located in Downtown Miami, minutes away from South Beach, Coconut Grove and the Key Biscayne area. It is also in the heart of Downtown's shopping district and walking distance to over 30 restaurants. If the guests would like to have a combination of shopping and dining, the hotel is 5 blocks away from Miami's famous Bayside Marketplace and one block away from the James L. Knight Center, site of the 14th ICID.

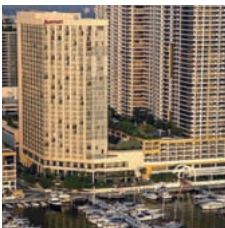

EPIC HOTEL

EPIC, a new lifestyle, boutique waterfront hotel, is located in vibrant downtown Miami at the edge of the Miami River and Biscayne Bay. EPIC combines the timeless style of a cosmopolitan boutique hotel with the amenities of a resort to create a sophisticated recreation oasis for guests amidst the energy and pulse of Miami. EPIC is conveniently located in Downtown Miami (right across the street from the Hyatt Regency) and 2 blocks from the James L. Knight Convention Center, site of the 14th ICID.

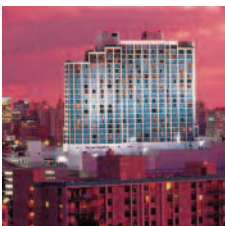

HOLIDAY INN PORT OF MIAMI-DOWNTOWN

The Holiday Inn Port of Miami-Downtown is located in the heart of Downtown Miami overlooking Biscayne Bay with direct access to the Metro Mover, downtown shops and finance district. This hotel features 200 spacious guest rooms. All rooms are equipped with two phone lines, voicemail, wireless internet service, dataports, coffee maker, hair dryer, ironing board, 27" remote control television with complimentary HBO, ESPN and Discovery Channel.

MIAMI MARRIOTT BISCAYNE BAY

Experience everything Miami at the Miami Marriott Biscayne Bay! Located at the intersection of Downtown and the Miami Arts District, our Hotel offers waterfront accommodations with a gorgeous view just minutes from the Port of Miami. With a US \$17 million renovation, our luxury Miami hotel rooms are designed to make your stay enjoyable. Rooms feature laptop, MP3, and video connectivity. Biscayne Bay Marriott offers convenient hotel amenities with a new state-of-the-art fitness center with Miami Bay views, and our hotel is located just 1/2 block from Miami Metromover, a free transportation system connecting all of downtown Miami, including the James L. Knight Center which is the site of the 14th ICID.

HILTON MIAMI DOWNTOWN

The Hilton Miami Downtown in Miami, Florida has just completed a multi-million dollar renovation of all 527 guestrooms including 58 suites that overlook Biscayne Bay and the downtown skyline. In addition to new bathrooms, the new guestrooms feature the exclusive Hilton Serenity Bed and Bath Collection®. The hotel has the easiest access to all points downtown, including the Port of Miami. Guests can enjoy the rooftop pool with views of Miami, complimentary use of the business center and exercising in the new Fitness by Precor® exercise facility. Just minutes away from the Miami Metromover and James L. Knight Center, site of the 14th ICID.

Sightseeing Tours

Booking

GEP South Florida is pleased to offer a variety of sightseeing and transportation options to enhance your visit to South Florida and the 14th ICID. Please visit our website at www.regonline.com/ISID14Tours for complete booking information. Additionally, we are pleased to offer pre & post conference activities, airport transportation, and more during your stay in Miami, FL.

Tour Cancellation Policy

Please note that all tours will depart from James L. Knight Center

- All cancellations must be made in writing.
- No refunds will be given after **February 12, 2010**.
- No refunds will be granted for no-show reservations.
- All approved refunds will be processed and issued within 60 days after the congress.

Tour Descriptions

Biscayne Bay Hydrobike & Kayak Discovery:

Launch from the shoreline into the clear, shallow waters off Key Biscayne on both an innovative hydrobike and a sleek kayak. Paddle and peddle your way past areas teeming with wildlife as your guide introduces the ecology and history of Bill Baggs Cape Florida State Park.

Date: March 9, 10, 11, 12 **Time:** 9:00 – 13:00hrs **Rate:** US \$ 230.00

Casa Casuarina – Versace Mansion South Beach:

Hidden from the world, behind high walls and ornate gifts, lies a refuge in the heart of Miami Beach, Casa Casuarina, a Spanish palace by the sea. Exclusive tours include world renowned interior designer and architect Massimo Comoli, who worked as lead interior designer with Gianni Versace for 11 years as well as being intricately involved in the creation of Casa Casuarina. Guests will enjoy the stories and explanations of how Gianni Versace transformed the villa into what it is today.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 158.00

Cuban Heritage Tour

Come with us on a journey through the story of Miami's Cuban community. Experience the passion and vision that these motivated exiles brought to their new home. We will be visiting Miami's own version of the Statue of Liberty, a well loved marketplace, great Cuban food spots, moving monuments, lively street scenes and a place of spiritual reflection and longing. Take in the smells, sights, sounds and colors of a street that launched the dramatic transformation of Miami over four decades ago and prepare yourself for a day of discovery and fun.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 158.00

Deep Sea Fishing

Experienced fisherman will guide your group as you saltwater fish for dolphin, grouper, sailfish, marlin, kingfish, snapper, barracuda, and many more (in season). South Florida is known for some of the best sport fishing in the world. Your boat will be completely outfitted with tournament quality equipment. All vessels are equipped with a licensed captain and mate that know where the best areas are for saltwater fishing. Boats hold six guests plus the crew.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 370.00

Everglades Adventure

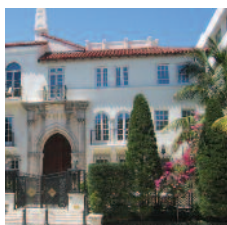

The Everglades Adventure from Miami takes you on a visit to the largest remaining Everglades swamp-land in the world. You'll experience the thrilling sensation of an airboat ride and you will witness the serene beauty of the untamed wilderness of the Everglades. You will see alligators, turtles, rare birds and all other sorts of plant and animal life.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 65.00

Historic Art Deco

This ninety-minute walking tour provides an introduction to the Art Deco, Mediterranean Revival, and Miami Modern (MiMo) styles found within the Miami Beach Architectural Historic District. Explore hotels, restaurants, and other commercial structures with a visit to a number of interiors.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$57.00

Sightseeing Tours

Jungle Island

Nestled between the sleek skyscrapers of downtown and the glamour of South Beach, sits Jungle Island. The sparkling waters of Biscayne Bay surround the lush gardens and tropical foliage of this remarkable venue. A professional tour guide will take you on a journey through the jungle learning about the history of the park and the animals in habit it. This trip is sure to be one of the many highlights of you stay.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 88.00

Mansion & Marina Cruise

During the 90 minute cruise, the narrator will entertain your guests with his hilarious antics as he regales stories and glimpses into the historical past and present of Miami. This cruise allows guests to peek into the backyards of many celebrities such as Rosie O'Donnell, Ricky Martin, Gloria Estafan and Barry Gibb. Other properties of interest include the honeymoon cottage of Liz Taylor and Eddie Fisher and the home used in the film "The Specialist" that starred Sharon Stone and Sylvester Stallone. On Palm Island guests will see one of Al Capone's old mansions.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 58.00

Miami City Tour

Be amazed at the tumultuous history of Miami real estate on this exciting tour. See the sites of early developments, including those of the Mackle Brothers, Tatum Brothers, George Merrick and Carl Fisher. Hear tales of scoundrels and syndicates, of boom times and depressions, including the sinking of the Prins Valdemar in 1926 which closed off the harbor to all building supplies destined for isolated Miami. Learn about Richmond Heights, created for African American servicemen returning from World War II. Stop at the Carl Fisher Memorial on Miami Beach.

Date: March 9, 10, 12, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 41.00

Miami Seaquarium

Come out to Miami Seaquarium for a wonderful day of fun. Miami Seaquarium features exciting shows, great exhibits and enjoyable educational presentations in their beautifully landscaped park overlooking Biscayne Bay. The park is located on Biscayne Bay and includes 37 landscaped acres.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 96.00

Miami Shopping

Greater Miami is a shopper's paradise, with a combination of breezy open-air venues and cool enclosed malls. Shoppers can choose from the latest haute couture and prêt-à-porter fashions to antiques, jewelry, fine art and more. The shopping possibilities go on and on.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 41.00

Sangria & Paella Ole

In Spain the tradition of authentic Paella making is passed on from generation to generation. Ola's Chef Jose Luis Flores will teach students the classic techniques with a special Miami flair. A chef will guide students through a step by step preparation of Spanish Paella, using a special paella pan and all traditional ingredients. He will then show students how to put a creative Nuevo Latino twist, adding unique flavors and spices.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 41.00

Vizcaya Museum & Gardens

You will start your tour at Vizcaya, the expression of an age of extravagance and grandeur and a place like no other. This 70-room Italian Renaissance-style villa with formal gardens was built in 1916 by industrialist James Deering as an opulent winter retreat. Following a palace tour, you will stroll the ten acres of formal Italian gardens. This is a unique way to experience the sub-tropical beauty of Miami and the European splendor of the Italian Renaissance, while learning both their fascinating histories.

Date: March 9, 10, 11, 12 **Time:** 10:00 – 14:00hrs **Rate:** US \$ 70.00

ProMED -mail

THE PROGRAM FOR MONITORING EMERGING DISEASES

A PROGRAM OF THE INTERNATIONAL SOCIETY FOR INFECTIOUS DISEASES

- ProMED-mail—the Program for Monitoring Infectious Diseases—is the premier publicly accessible Internet-based reporting system dedicated to rapid global dissemination of information on outbreaks of infectious diseases that affect human health.
- With the aim of reducing disease morbidity and mortality, ProMED-mail uses electronic communications to identify, evaluate, and distribute critical information about emerging infectious diseases seven days a week.
- ProMED-mail is open to all sources and free of political constraints and currently reaches more than 49,000 participants in over 185 countries.
